Orion III

The **Orion III** is the most innovative and affordable tilt-in-space wheelchair on the market today. Developed for those individuals requiring adjustability to redistribute their body weight for optimal positioning purposes, the **Orion III** offers 3-45 Degree of tilt, optional -9, +33 Degree of infinite recline, standard on-chair adjustable seating system, incredible range of seat-to-floor heights and creative streamlined design.

Whats New!

- Growable frame
- Side fixed mount light wheel locks
- Larger front opening for foot propellers
- Multiple positions for rear wheel mount for greater stability and movement
- Dual cross gas cylinders
- Heavy wall caster housing inserts for greater impact strength

Larger front openings make it easy for wheelchair movement by foot

Dual cross gas cylinders to recline wheelchair with ease

Dual Cross Gas Cylinders located underneath the chair, allows for a gentle, slow tilt for the client, lockable at infinite angles

Weight Shift center of mass tilt trace path giving a more stable final tilted position

Rear Axle mount can be adjusted for greater stability and movement

Foot Tilt release option for easy tilt by stepping
